

## House Special Specification

Maintaining front of house eye appeal on older steel roofing sheets and components needs a specialist designed specification to restore old and worn out coatings, and cut edge corrosion.

So when faced with this issue during the refurbishment of the roof of the busy Frankie & Benny's restaurant at Doncaster, coatings experts NSS Maintenance Ltd of Manchester turned to DriSilane® to supply the most effective design solution.

DriSilane® specifications are designed to refurbish profiled steel roofs by reinstating sheet protection, seals and gutters with advanced coating technology, installed by experienced professionals, recognised for their skill and expertise.

Coating application was completed without disruption to restaurant facilities, within budget and on time, and both client and contractor were delighted with the outcome.

Roof Item:	Area	Specification
Aged Factory Coating /	720 m <sup>2</sup>	DriSilane® ReCote
Cut Edge Corrosion		

Specifier & Installation: NSS Maintenance Ltd. Manchester  
Tel: 03459 677477

DriSilane® ReCote has been designed to offer cost effective repaint protection to the weather side of structurally sound profiled metal roof sheeting.

Roof Spec: DriSilane® ReCote

### What's included

DriSilane® ReCote includes sheet cut edge preparation followed overall by one coat of DriSilane® Elite, a hybrid polymer roof coating with a 20 year performance warranty.

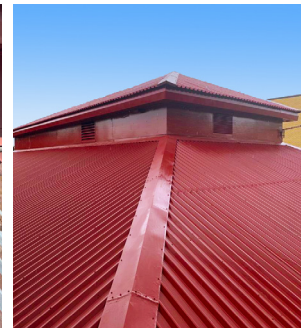

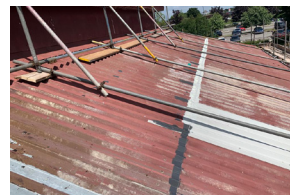

## DriSilane® Programme Coatings

- are engineered to be surface damp tolerant and manufactured using advanced hybrid polymer technology that combines the elasticity of silicone and toughness of polyurethane for durable flexibility, adhesion and strength.

Products are fully warranted. DriSilane® ReCote carries a 20 year warranty.
